No Serious Disturbances Likely-Combination of Unpleasant Circumstances Makes Awkward.

disturbance is likely. In commenting on the situation, the Diarlo de la Marina says:

"A combination of unpleasant circumstance having no link one with the other, appears to make the situation at first sight more serious than it really is. Each one of the problems that at present confront the administration—the yellow fever epidemic, the conspiracy of Parra, Miret and Ducassi, the existence of bands of outlaws in the country and the railroad strike, is of an alarming character, but except for the tendency of the strike to become general and stop railway communication, throughout the island, these events are of no great importance in themselves.

"The yellow fever has not spread and there appears no danger of a general epidemic, as cases are comparatively few up to the present time."

"The conspiracy was a very ridiculous one, and even if it had succeeded in inducing some fools to take the field, it would have been nipped in the bud. The Mayari band of outlaws cannot be considered of more importance than many other previous bands of guerrilas who have occasionally appeared in Cuba.

"There is no reason, therefore, for

"There is no reason, therefore, for extraordinary alarm, or for believing Cuba is on the brink of an abyss. "Even the strikers have not, as yet, committed any act of violence. If their disagreement with the railway companies is not settled other men will be found shortly to run the trains. In this case, any attempts on the part of the strikers to resort to force will be prevented and punished according to law. The situation, for all these reasons, is not so grave and the government has ample means to cope with it." Clenfuegos may soon become the trouble zone. The waiters there are on strike and others plan to strike soon. It is reported also that political trouble is coming in that vicinity where conspirators have been active.

Most people think that the railroads and other strikes offer more prospects of serious trouble than threatened revo-lution. The lightermen of Havana har-bor will probably strike today and the stevedores in a few days.

New York, Sept. 30 .- The big life inly preparing for their annual elections caused under the Armstrong insurance law. A year ago these elections caused a worldwide interest because of the fight to defeat the administration tickets of the Mutual Life and the New York Life by the international policyholders' committee which put a ticket of its own in the field for each company. These opposition tickets were defeated. Although the policy holders' committee, after its defeat announced that the effort to oust the present managements of the companies would be renewed at the next election, no steps to that end have been taken yet, so far as can be learned. The managements of the companies concerned, it is stated, have for the most part renominated present directors. worldwide interest because of the fight to

#### STRIKE AT NEW ORLEANS.

Longshoremen and Teamsters on River Front Go Out.

New Orleans, Sept. 30.—About 500 long-shoremen and teamsters went on strike here on the river front today, when the crews of the Leiand and Austro-American line steamers started stowing cotton in vessels. The strike was expected, the steamship agents having falled to make an agreement with the cotton crew men. Other union laborers besides the crew men, longshoremen and teamsters are interested and it is probable that 8,000 men representing practically every class of labor along the river, will become involved.

# ANOTHER FAKE

Hon. A. Milton Musser Tells Just What He Did Say.

#### THAT TWILIGHT INTERVIEW.

Saturday Night's Shish Branded as False and Distorted by the

Victim of Misquotation.

Hon. A. Milton Musser pronounces the purported interview with him, published in the evening edition of the Tribune last Saturday, to be distorted and false. This, he says, for the reason that what he really did say to the reporter who visited him was carefully eliminated from the report, while half of the front page of the sheet was filled up with quotations, scarcely one word

of which was uttered by him. When the reporter entered Mr. Musser's office and asked his views on certain political matters, he was told that he had come to the wrong person for information, Mr. Musser states that he jokingly said that politically he did not weigh more than three ounces to the pound, and he gave the fellow the names of several politicians to whom he could go with far better prospects of getting what he wanted.

GAVE HIS REASONS.

In answer to questions, however, Mr. Musser stated that he wished to see the "American" party defeated in the coming election, and gave his reasons therefor. Among the objections enumerated by him against the party now in power was the mal-administration from which Sait Lake has suffered for two years, the scandals in the police department, the jangling and wrangling of the majority in the city council, the unment, the jangling and wrangling of the majority in the city council, the uncalled for increase of taxation, the crude and in some instances almost worthless paving that has recently been done, etc. For these and other shortcomings of the "American" party. Mr. Musser was decidedly of the opinion, he told the reporter, that it should no longer be permitted to apply its misrule.

THAT FUSION TALK.

As to how the aggregation should be beaten, Mr. Musser did not make mention, he declares. He did not make use of the terms "Democrat" or "Republican," and did not say that the adherents of the one should flock to the other. He thought fusion was about the right thing under the circumstances, but the manner and means of accomplishing it was not discussed by him, and what he did say to the reporter, states Mr. Musser, was his private opinion, after trying to get away from talking at all.

#### NEWTON CASE CONTINUED.

Judge Diehl Refuses to Dismiss, Saying Defense Must Make Showing.

The case of Atty. William Newton, Charged with receiving a stolen check for \$300, was called in Judge Dehl's court this morning was the first case on the docket. It was alleged that Newton re-ceived a check payable to one Peter Olson, knowing that the same had been stolen. After the state had presented its case, the defense, by Atty. Soren X. Christensen, made a motion that the case be dismissed on the grounds that the state had failed to make out its case. In passing upon the matter this morning, Judge Diehi said that the argument made by the defense to the effect that the testimony of an accomplice should not be considered did not apply in a preliminary examination. Judge Diehi said that were the defendant on trial the court could not, under the testimony, find him guilty, but that the defense should make a showing. Therefore, the motion to dismiss was denied and Newton will either have to put on a defense or submit the case to the court as it stands now. The matter was continued without date and will be taken up when Assistant County Attorney Job P. Lyon returns from New York. Christensen, made a motion that the case

Jerome is on the north side of Snake fiver, and is deathed to be to that section of soundry what Twin Falls is to the south side. The project is under the system of the Twin Falls North Side Land and Water company, and the entire tract comprises 15,000 acres. As stated, 150,000 acres are now being offered for entry, by the state of Idaho, under the provisions of the "Carey act."

Jerome is 12 miles north of Twin Falls, and is in the very heart of a level stretch of country, the soil of which is second to none in the Gem state. Prof. Fulmer, chemist of Washington state university; in his seventh test of soil in that locality, finds a small trace of alkulf and 50 per cent more plant producing qualities than in the Yakima valley, and states that there is only one place on the Pacific coast where it is equaled, and that is in the Fajara Valley. We have let Contracts for the complete overhauling and remodeling of our building. These alterations will necessitate the cutting away of division walls, piano parlors to be torn out and new ones put in, the basement to be completely changed into a fine show room for used pianos, organs and talking machines. When all of this is done we will be in possession of one of the handsomest and most up-to-date houses of things muscial that may be found in this whole broad land.

Our warerooms now are simply overflowing with as fine a line of high grade instruments ever gathered together under one roof. In order that the workmen may not be impeded or interrupted by avoiding damaging the instruments we must and will

#### CLOSE OUT ENTIRE STOCK IN NEXT TEN DAYS

No need to tell you how susceptible to injury are the highly polished surfaces of pianos from dust, dirt, plaster, cement, falling bricks, etc. No need to tell you of the damage liable to occur by moving the pianos about or by rubbish incident to the work, or that the workmen must have room. These facts, while they make this sale necessary, scarcely need to be related.

No need to tell you that to move this immense stock to a storage house, then back after store is completed would involve a big expense and damage to the goods. So we have decided to simply give the people a chance at the entire stock, to buy instruments here during the next ten days at their cost to us. Instead of moving the pianos to a storage house we will move them to the homes of the people, taking our unavoidable loss in loss of profits, rather than in damaged goods, the buyers getting the benefit.
